Entomol. exp. appl. **71**: 282–283, 1994.

Index to volume 71

K. A. Suiter & F. Gould, Physiological resistance and behavioral avoidance responses to residues of four pesticides by six spider mite populations 1
R. Sequeira & M. Mackauer, Variation in selected life-history parameters of the parasitoid wasp, *Aphidius ervi*: influence of host developmental stage 15
R. A. Cole, Locating a resistance mechanism to the cabbage aphid in two wild Brassicas 23
S. R. Reitz & W. C. Nettles, Jr., Regulation of *Helicoverpa zea* larval behavior by the parasitoid *Eucelatoria bryani* 33
M. S. J. Simmonds, W. M. Blaney, R. Mithen, A. N. E. Birch & J. Lewis, Behavioural and chemosensory responses of the turnip root fly (*Delia floralis*) to glucosinolates 41
F. Kocourek, J. Havelka, J. Beránková & V. Jarošik, Effect of temperature on development rate and intrinsic rate of increase of *Aphis gossypii* reared on greenhouse cucumbers 59
A. J. Nisbet, J. A. T. Woodford & R. H. C. Strang, The effects of azadirachtin-treated diets on the feeding behaviour and fecundity of the peach-potato aphid, *Myzus persicae* 65
P. J. Murray & R. O. Clements, Investigations of the host feeding preferences of *Sitona* weevils found commonly on white clover (*Trifolium repens*) in the UK 73
Short communications
H. Katakura & T. Hosogai, Performance of hybrid ladybird beetles (*Epilachna* spp.) on the host plants of parental species 81
H. Mao & Y. Kunimi, Effects of temperature on the development and parasitism of *Brachymeria lasus*, a pupal parasitoid of *Homona magnanima* 87
Book reviews 91
J. Hardie, A. J. Hick, C. Höller, J. Mann, L. Merritt, S. F. Nottingham, W. Powell, L. J. Wadhams, J. Witthinrich & A. F. Wright, The responses of *Praon* spp. parasitoids to aphid sex pheromone components in the field 95
H. C. Sharma & V. F. Lopez, Interactions between panicle size, insect density, and environment for genotypic resistance in sorghum to head bug, *Calocoris angustatus* 101
A. Zangger, J.-A. Lys & W. Nentwig, Increasing the availability of food and the reproduction of *Poecilus cupreus* in a cereal field by strip-management 111
H. Kajimura & N. Hijii, Reproduction and resource utilization of the ambrosia beetle, *Xylosandrus mutilatus*, in field and experimental populations 121
J. Weslien, Interactions within and between species at different densities of the bark beetle *Ips typographus* and its predator *Thanasimus formicarius* 133
J. M. Holland, R. B. Chapman & D. R. Penman, Effects of fluvalinate on two-spotted spider mite dispersal, fecundity and feeding 145
Y. Hailemichael, J. W. Smith, Jr. & R. N. Wiedenmann, Host-finding behavior, host acceptance, and host suitability of the parasite *Xanthopimpla stemmator* 155
J. J. Howard, D. Raubenheimer & E. A. Bernays, Population and individual polyphagy in the grasshopper *Taeniopoda eques* during natural foraging 167
Short communications
P. F. Dowd, Examination of an *Aspergillus flavus* resistant inbred of maize for cross-resistance to sap beetle vectors 177
B. J. Hicks & R. Gordon, Effect of the juvenile hormone analog fenoxycarb on post-embryonic development of the eastern spruce budworm, *Choristoneura fumiferana*, following treatment of the egg stage 181
T. W. Phillips & M. R. Strand, Larval secretions and food odors affect orientation in female *Plodia*
